

Cough? Chemical smell?

Nasty industrial chemical found with fentanyl locally.

Get your drugs.
TESTED.

A new industrial chemical is causing bad cough, ringing ears, blurred vision, and puking. It has a taste/smell like bug spray, plastic, or adhesive.

Stop using if you smell it.

Talk to your harm reduction program about what you can do to avoid bis(2,2,6,6-tetramethyl-4-piperidyl) sebacate.
